

Design

CBT 65 760mm diameter is made up of continuous circular coil loops alternately clipped adjacently around the circumference creating a concertina format.

Quality & Testing

CBT 65 760 is manufactured using high quality stainless steel blade material, ensuring a quality surface finish.

Performance & Durability

CBT 65 760 is manufactured with high quality Grade 304 stainless steel with a long barb format formed around a high tensile galvanised wire. The clips used adjacently around the circumference of the barb tape are high quality stainless steel.

Finishes

Standard surface finish for the Razar Tape® material is 2B Grade 304 stainless steel within a matte satin appearance.

Specifications

The long size blade is manufactured from 0.60mm thick coil stainless steel with a blade length of 65mm at 100mm stackings, creating medium security benefits. The core wire selected is a high quality 2.5mm diameter W05 galvanised Range 1 spring wire.

Recommended Fixings

Recommended fastenings of the CBT 65 760 are ASF Razar Wire clips with a M8 cuphead bolt, washer and hexagon nut. ASF recommended that at every third fastening point, a shear nut is used in place of a hexagon nut.

Appropriate Standards

The CBT 65 760 galvabond steel is ASTM-A240 as well as the clip. The Range 1 wire is supplied as to AS1472-2003.
